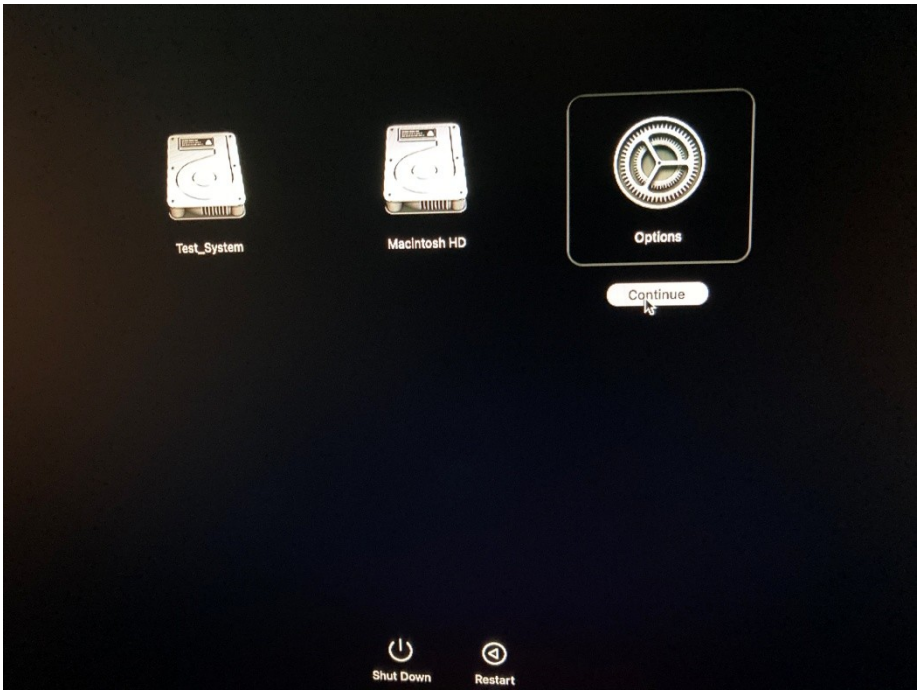
Installing ZYLIA ZM-1 driver on Apple computers with M1 processor.....5

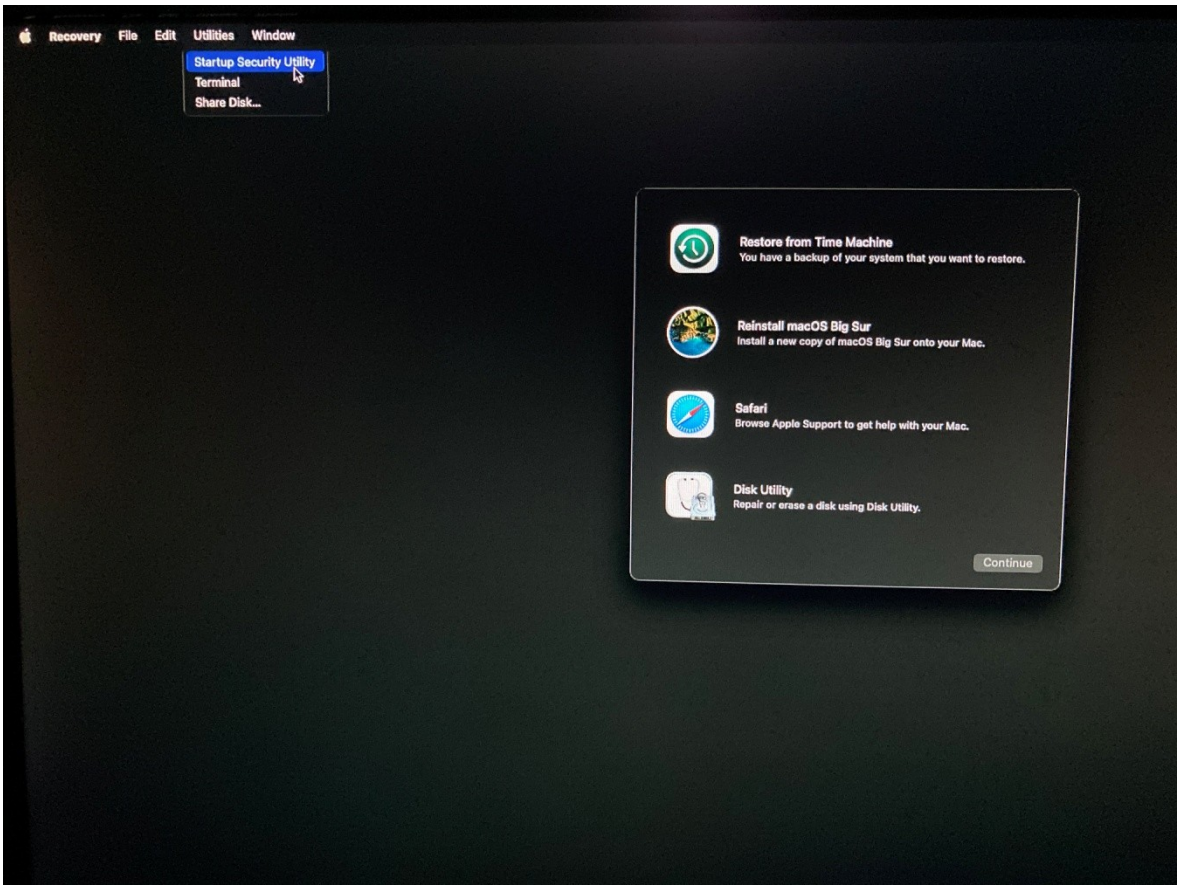
Installing ZYLIA ZM-1 driver on Apple computers with M1 processor

In order to install and use ZYLIA ZM-1 driver on Apple Silicon processors, user needs to change security policy for the given system.

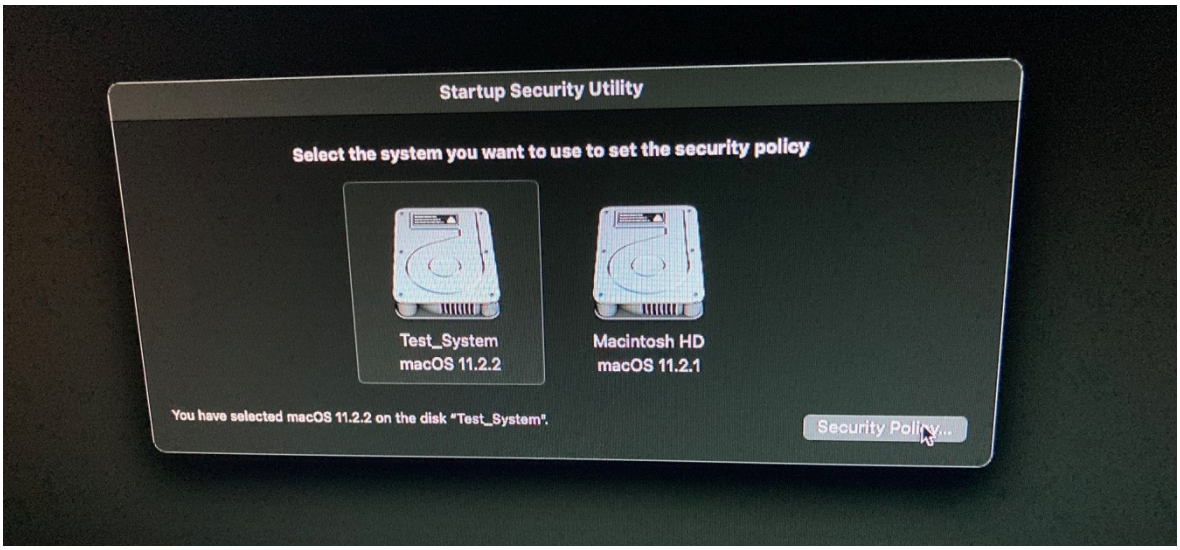
1. Go to Recovery Mode:
    a. Choose Apple menu > Shut Down
    b. Press and hold the power button on your Mac until you see “Loading startup options.”
2. Choose Options:



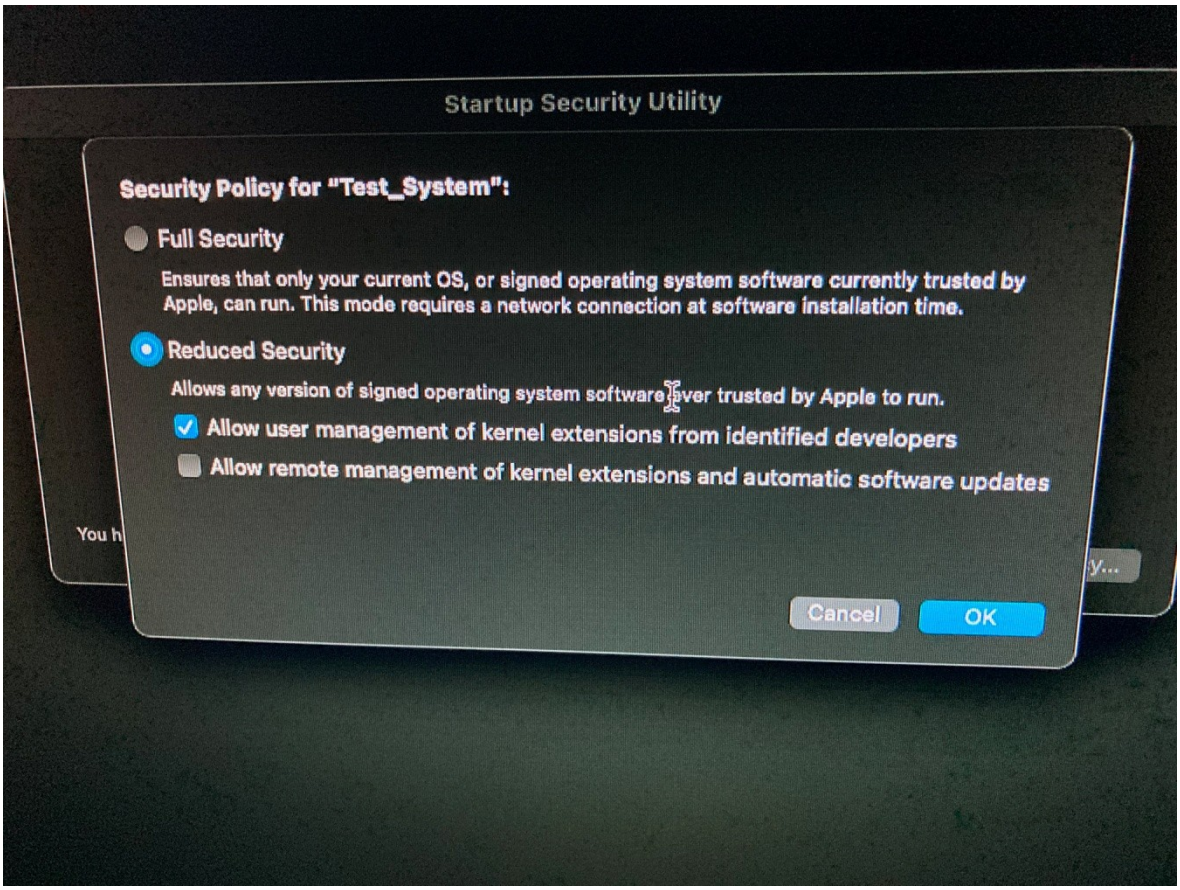
3. From Utilities choose Startup Security Utility:



4. Choose your startup disk and click on Security Policy… button:



5. Change the policy to Reduced Security with “Allow user management of kernel extensions from identified developers” option:



6. Click OK button and restart you computer.
7. After that, you can install ZM-1 driver.
